

QuarkNet / Purdue Physics and Astronomy

MODERN PHYSICS REMOTE TEACHER WORKSHOP

for Indiana Teachers

*Gear up for the new
Indiana 2022 Physics Standards*

New to teaching physics?

New to modern physics?

New Indiana 2022 modern physics standards got you thinking?

Thursday, Sept. 8, 2022, 4:30 - 6 PM EST

Please register by September 1, 2022

In this free remote workshop, learn more about the standard model, nuclear forces and particle decay, energy/mass conservation, accelerators and detectors, and more...

Get classroom resources, demonstrations, background content and Q and A provided by our QuarkNet educators and become more proficient in teaching concepts essential to modern physics.

For additional information, please contact:

QuarkNet Fellow **Marla Glover**, Purdue University, mglover@purdue.edu, or **Dr. David Sederberg**, Purdue Physics and Astronomy Outreach, dsederbe@purdue.edu.

QuarkNet is supported by the National Science Foundation and the U. S. Department of Energy.
